Health Care Quality: What We've All Learned

- A “quality chasm” exists in health care
- Models exist that can improve care for chronic illness
- Since you can't improve what you can't measure, more performance information has become available
- Health care system of providers, patients, payers and the community

RWJF Quality Team Strategies

- Standardize quality measurement
- Engage consumers and purchasers to demand quality
- Demonstrate alignment of forces at local level
- Monitor progress on quality improvement

RWJF Quality Team Strategies

- **Standardize quality measurement**
 - ❖ National Quality Forum
- **Engage consumers and purchasers to demand quality**
 - ❖ Building coalitions around transparency

RWJF Quality Team Strategies

- **Demonstrate alignment of forces at local level**
 - ❖ Studying areas with active regional health care coalitions and high level of quality activity
- **Monitor progress on quality improvement**
