Full Circle Plan

Three areas that I want to change in my dietary patterns include:

1. _______________________________________________________
2. _______________________________________________________
3. _______________________________________________________

My goals include: __________________________________________
_________________________________________________________________

Time Period: ________________________________________________

How Often (ex. Daily, one time per week): _______________________

How much (ex. ½ cup, 1 cup): ________________________________

Where (ex. Home, work, restaurant): __________________________

With Whom (friend, family member): __________________________

The 3 challenges that I will most likely encounter in my efforts to reach my dietary goals include:

Challenge #1: ______________________________________________
Challenge #2: ______________________________________________
Challenge #3: ______________________________________________

I will manage my challenges in order to prevent them from affecting my ability to meet my goal

To manage Challenge 1, I will _________________________________
_________________________________________________________________

To manage Challenge 2, I will _________________________________
_________________________________________________________________

To manage Challenge 3, I will _________________________________
_________________________________________________________________

How sure are you that you will be able to do your action plan?
